WILL EXPLOIT
CITY OF ROCKSCompany to Work Peculiar
Rock Formations for Valu-
able Minerals

BURLEY, Ida., Oct. 5.—Through efforts of Mrs. Emma Mikesell, the city of Rocks, near the Utah-Idaho line south of Burley, will be thoroughly explored for valuable minerals.

For some years Mrs. Mikesell has lived on a farm near this peculiar geological formation and while there conceived the idea of locating several mineral claims and interesting capital in their development, the most important product of her holdings is white topaz, said to be an excellent imitation of Brazilian and African diamonds. The topaz has been cut into stones from one to three carats.

Mica will also be mined on the property, it being possible to dress the mica into pieces twelve inches square, or twenty inches long, with a small width.

Miles E. North and C. C. Young of Reno, Nev., have become interested in Mrs. Mikesell's properties and have formed a company to operate on the properties. The city of Rocks is situated on the old Overland trail and is so named because of the city-like appearance of the rock formations, resembling a city with streets, houses and even cathedrals and their spires.

'Repeaters' Drop in
to See Harold Lloyd
in Big Laughmaker

The phrase of "packin' 'em in" is demonstrated at the Ogdén theatre where the Harold Lloyd comedy, "Get Out and Get Under It," together with Will Rogers in "Water, Water, Everywhere," is being shown to packed houses. The hit pictures have made at the Ogdén is shown by the larger number of "repeaters" who came to see the Ogdén again yesterday after seeing the pictures on Sunday night. It has been found by the Ogdén theatre upon a number of occasions to notice that men, women and children are all the same when it comes to "repeating" on the Lloyd comedies. A certain business man of Ogdén was known to have seen one of the recent Lloyd pictures five times. He said that it cleared up his mind and he could go to sleep better.

"Get Out and Get Under It" is a comedy for a person who owns an automobile, has ridden in one or has even seen one to see. It will make one weak from laughter at the amazing comedy.

The other big treat on the double bill is Will Rogers in "Water, Water, Everywhere." Of course that does not necessarily mean a big flood, such as we seen here out on Ogdén river in the spring, but its regular honest to goodness drinking water for the fellow who has drank something stronger, such as lemonade, etc. (Edie is the name).

New Zealand government chemists after long experimenting have found a way to separate dirt from kauri gum and increase its field of oil for use in varnish.

Conspicuous
Nose pores—

How to reduce them

DO you know what it is that causes conspicuous nose pores, the bugbear of so many men—as well as women?

The pores of the face are not as fine as on other parts of the body. On the nose, especially, there are more fat glands than elsewhere, and there is more activity of the pores.

These pores, if not properly stimulated and kept free from dirt, clog up and become enlarged.

That is the reason why a great many people have conspicuous nose pores.

Try this special treatment for this trouble given above, and supplement it with the steady, general use of Woodbury's Facial Soap. Before long you will notice how it gradually reduces the enlarged pores until they are inconspicuous. But do not expect to change completely in a week a condition resulting from long-continued exposure and neglect.

Smith was the last of the four to admit his complicity in the robbery. His story was related yesterday afternoon to Assistant County Attorney W. F. Jones, and he was immediately taken before City Judge Henry C. Lund, where he changed his plea to guilty.

MEXICAN REBEL
CHIEF CAPTUREDNephew of Former President
Diaz Is Prisoner of Gov-
ernment Troops

TLAPACOTAN, Mexico, Oct. 4.—(By the Associated Press)—Felix Diaz, nephew of former President Porfirio Diaz and leader of elements in the state of Vera Cruz, which recently have given government officials concern, is a virtual prisoner of General Sanchez, government representative here. He arrived at the camp of General Sanchez this evening to continue negotiations with General Sanchez, relative to a settlement of his demands upon the administration. It is understood he will be taken to Vera Cruz.

Counter-proposals to the demand of Diaz were telegraphed here from Mexico City and communicated by General Sanchez to Diaz. Diaz's answer was telegraphed to the capital and at 2 o'clock this afternoon General Sanchez sent Colonel Vasquez to Hacienda Jorullo with the provisional President de la Huerta's final decision which included a stipulation that Diaz would leave Mexico immediately.

At 5 o'clock Diaz replied he would under no circumstances leave Mexico. At that hour military operations were reported to have been begun. Whether General Diaz was detained or was taken prisoner by government troops has not as yet been announced.

MEXICO FACES
DAMAGE CLAIMSFrance, Great Britain and the
United States May Ask
\$20,000,000

MEXICO CITY, Oct. 5.—Intimations that the United States, France and Great Britain have concluded a treaty against Mexico are contained in Washington dispatches to the presidential offices here. It is believed this treaty may possibly be connected with an agreement relative to the collection of damages amounting to \$20,000,000 resulting from revolutions here.

HAS BEEN DISCUSSED.
WASHINGTON, Oct. 5.—The American, British and French governments have had some correspondence regarding Mexico and the numerous claims of their citizens resulting from the ten years of revolution in Mexico, but state department officials deny that any treaty against Mexico has been negotiated. Reports that such a treaty had been entered into originated in Berlin and were attributed to a high official of the German government.

Great Britain and France are represented here as closely following the lead of the United States with regard to Mexico and officials say there is little likelihood that they will accord recognition to the new regime in Mexico in advance of similar action by the United States. The matter of recognition still is being considered by the state department, but an immediate decision is not regarded as likely.

DEER ANSWERS THE CALL
OF FORESTER WHO
RAISED IT

SAN RAFAEL, Cal.—A two-pronged buck deer answered the calls of Jerry Shine, employed by the Municipal Water District at Alpine Dam near here.

Long ago Shine one day came upon a dead doe in the trail of the forest and standing beside its mother was a fawn. It was miles to Shine's cabin, but he carried the fawn home with him, fed and gave it the name of Billy. After a time Shine left the district. He returned several days ago and asked his fellow workers the whereabouts of his deer. They laughed at him; the deer had gone, back to nature, they said.

Shine mounted the parapet of the dam and called for Billy. The deer now the proud possessor of two-pronged horns, bounded out of the forest. A photograph was taken of the man and the animal as the latter rested his forepaws on the shoulders of Shine.
